### **Matters arising:**

1. Week commencing 9<sup>th</sup> November – Test specification to be delivered. Discussion on the current state of the specification and what is required.
2. PHPUnit equivalent of Junit discussed and talked about experiences with Unit testing. ACTION: Robert to email Laurence to see if this is required.
3. Emil and Richard talked about how the java code will best be implemented, and what sort of testing will be needed.
4. Dan and Greg talked about the HTML and PHP, and the easiest way to implement it.

### **New Business:**

1. Google Docs set up for test specification. Max Limbu has been working on it, uploaded to Google docs to stop multiple versions being shared.

**Meeting adjourned at 1:40PM by Project Leader Rhodri Pearce**
