1.0 Introduction

1.1 Purpose of this document

This is the project task list for group 16. This document lists tasks that have been undertaken by the group and group members throughout the project.

1.2 Scope

This document lists every task undertaken during the group project. It gives a brief description of each task but does not list the individuals who completed the task.

1.3 Objectives

The main objective of this document is to be able to keep track of every task that has taken place during the group project. Each task has a reference number and by listing every task here it allows members of the group to refer back to it in order to check which code corresponds to which task.
